The Elevated Escape in Eagle Ranch — a masterfully designed 2018 custom home set on one of the premier lots in the Highlands neighborhood, offering sweeping, unobstructed views of Castle Peak and the surrounding Rocky Mountains. This four-bedroom, four and a half bath residence blends refined craftsmanship, thoughtful design, and a seamless connection to Colorado's outdoors. The open-concept main level is framed by floor-to-ceiling glass that fills the home with natural light and captures mountain vistas from every room. A vaulted great room centers around a striking stone fireplace and opens to a chef's kitchen featuring Wolf appliances, custom cabinetry, and a grand island designed for both casual living and elegant entertaining. Dual sliding doors expand the living space to a covered patio oriented north toward panoramic views—ideal for morning coffee or sunset gatherings. The main-level primary suite is a serene retreat with a spa-inspired five-piece bath, soaking tub, walk-in shower, and generous closet. A secondary en-suite bedroom on this level adds flexibility for guests or a home office. The walk-out lower level invites connection and comfort with a spacious recreation room, full wet bar with beverage fridge, stone fireplace, two bedrooms, two full baths, and a dedicated laundry room. Just outside, you will find a covered patio and fenced yard featuring a gas firepit and lush lawn—perfect for entertaining under the stars. With an oversized heated three-car garage, air conditioning throughout, a whole-house water filtration, in floor radiant heat and extensive built-ins, you will find comfort year-round.
